

SACE COURSE OVERVIEW 2019	LANGUAGE: GERMAN	COURSE TYPE: BEGINNERS	LEVEL: STAGE 1
----------------------------------	-------------------------	-------------------------------	-----------------------

This course focuses on developing and applying communication skills in German (speaking, listening, reading & writing), developing understanding of language as a system and enhancing intercultural understanding. Detailed information is available from the Subject Outline accessible from the SACE Board web site: <http://saceboard.sa.edu.au>

Within the set Perspectives, Themes and Topics, students are given opportunities to build their communication skills, and their understanding of the language and the culture. They are assessed through a series of required assessment types as outlined in the Subject Outline. A Learning and Assessment plan is available to students on their class Edmodo at the beginning of the course. As per SACE guidelines, students will be assessed against set criteria. Grades will result from student performance against the Performance Standards at A - E level. Five capabilities have been incorporated into the language program. These capabilities are: communication, citizenship, personal development, work and learning. The capabilities enable students to make connections in their learning within and across subjects in a wide range of contexts. In courses, which have texts and dictionaries, students are required to purchase these.

Dictionary: Collins German Dictionary and Grammar
