

Communique for Parents/Carers: 27th April 2020

Dear parents/carers,

Welcome to Term 2! I hope that your children enjoyed their holiday break and are now ready to take on the challenges of learning in these uncertain circumstances.

Online learning is commencing for all our classes this week. Please refer to my last communique of 6th April for information about what this means in our context.

All our staff will be working at our Torrens Rd site, to deliver online learning to our students, at the usual lesson time. This means that students will be learning at home, and teachers will be at school, delivering lessons at the usual lesson time.

As our teaching takes place in 26 different schools around the metropolitan area, our return to face to face classes may take a bit longer than it does for mainstream schools. We will notify you through SMS of the timeline for resumption of our face to face classes, which we are hoping will be soon.

Until then, should you require your child to attend lessons, please note that **they will need to attend our Torrens Rd site, not their usual teaching centre**. Please also note that any students who do attend our site for their after hours languages lessons, will be in a supervised classroom, receiving online lessons from their teacher. Therefore it is important that they bring their devices, headphones and all necessary equipment with them.

Please inform us asap if you require your child to attend our Torrens Rd site, so that we can plan for their supervision.

Yours sincerely,

Ms Lia Tedesco
Principal
