

**What did our R-7 Indonesian students have to say about their recent Indonesian competition experiences?**

- ❖ *It was fun to come up with the storyline and make props and costumes. I had a lot of ideas and it seemed interesting. Even though we didn't win the 2021 National Australia Indonesia Language Awards Speech Competition, I loved it! (Keshia).*
- ❖ *I would definitely recommend the national Speech Competition to others because it's something you can take pride in later. It gives you an experience to practise public speaking for the future. I took part because I like doing plays and reading scripts to get into character (Selma).*
- ❖ *The national Speech Competition was a nice break from the usual learning. When someone was absent on the day of filming, we solved the issue by improvising the scenes (Leeo).*
- ❖ *I got to know how my classmates react to certain situations and realised how much we all have in common (Alex).*
- ❖ *I took part in the Premiers Reading Challenge Indonesian Competition because I thought it would be interesting reading kind of books I don't usually read and do more things in class other than my work. I would recommend it since it get more knowledge about stuff (Kirana).*
- ❖ *I learn something new from the Premiers Reading Challenge Indonesian Competition and I will do it again in the future because I like reading stories. When I read, I am happy (Genevieve).*
