Since the introduction of primary programs, enrolments have been steadily increasing every year. There was another enrolment dip in 2022 due to Covid.
- Year of opening:

The school was opened in 1986.

2. Students (and their welfare)

- General characteristics:

The school's students come from over 270 other schools from all 3 education sectors. Students attend after hours classes at various locations around the metropolitan area. There is considerable cultural diversity in the student body, which reflects the many languages taught at the School of Languages. Many of the students are from non-English speaking backgrounds.

Some of the school's students have a background in the language they are enrolled in. There are also some international students, with Full Fee Paying Overseas Students concentrated in Chinese and Vietnamese.
- Support offered:

The support structures, rules and expectations are outlined in the School of Languages booklets which are issued to each student/family upon enrolment. Feeder schools are also provided with a copy.
- Expectations of students

The school has a Code of Conduct which outlines the Behaviour Code in terms of Expectations and Consequences.

The school also has an Attendance Policy which addresses lateness and early departure, absence, and suspected/confirmed withdrawal.

In addition, the school has a comprehensive Drug Policy and detailed procedures, and a Cyber Safety Policy.

These policies are all on the school website.

Follow-up procedures are clearly described, with roles and responsibilities for teachers, admin staff, co-ordinators, Assistant Principals and the Principal.

- **Special curriculum features:**

The school prides itself on its' strong focus on sustained curriculum development and its training and professional development program for all teaching staff, which includes foci on assessment and learning and communication technologies.

The school also provides support to students and teachers of languages state-wide, through its Languages Alive! school holiday program for primary children, Let's Talk! holiday intensives for senior secondary students, study tour programs (on hold at moment), Year 12 Vacation program, and professional development for teachers in First Languages Maintenance and Development programs.

- **Teaching methodology:**

Teachers detailed planning and programming is informed by the Australian Curriculum, and the requirements of the SACE subject outlines and the IB Diploma. It is based on the intercultural approach to language teaching and includes foci on understanding language and understanding culture.

Each week teachers prepare detailed lesson plans, based on their long-term planning, to fully utilise the weekly teaching blocks, and set one week's worth of structured homework. Learners who are absent can access these through Class Teams (Years 3 – 12).

- **Assessment procedures and reports:**

Formal reporting on student progress occurs each term (4 times per year). Copies of reports are forwarded to students' day schools.

LCT support is substantial, through the implementation of the Microsoft suite, the services of the LCT Manager and significant professional development opportunities.

- Performance and Development:

Performance and Development processes are in place, in line with the Departmental Policy. Each staff member, in collaboration with their line manager, develops a Performance Plan. Monitoring of performance occurs informally in an ongoing manner, and through 2 formal review meetings held each year, where staff identify successes and challenges, areas of strength and areas for improvement.

- Staff Deployment Policies:

The teaching staff work mostly in an after hours mode. For example, each 3 hour class at the School of Languages is considered a 0.20 appointment, which involves face to face teaching of 165 minutes and a 15 minute break (with yard duty), and on site duty at the school base of 2 hours per class.
